Charles A. Halleck  
Samuel S. Stratton

2. Prior to the meeting, the Director and [REDACTED] met with Mr. Hardy to discuss conduct of the briefing. It was agreed that the Director should supply appropriate highlights without going through the entire briefing and then the prepared material would be made available to the Subcommittee and incorporated by reference into the transcript.

3. The Director read most of the following sections in their entirety:

Communist China including Military Forces, Strategic  
Weapons, and Foreign Policy  
Haiphong Harbor (Supplement)  
Laos  
Thailand  
ChiCom Military Capabilities for a General  
Offensive in SEA  
Burma  
India  
Pakistan  
Cambodia  
Indonesia  
Korea  
Japan  
Hong Kong

The Director also discussed the situation in Malaya.

4. There were two action items. One concerned the question of the amount of supplies and equipment moving through Cambodia into South Vietnam including Mekong River traffic. Mr. Hardy requested that we furnish an overall picture of this situation and it was agreed that we would supply a memorandum. (2) Mr. Stratton asked for some information on the Korean War as to whose initiative the North Koreans attacked--whether the Soviet Union or Communist China. It was agreed that we would supply a memorandum for the record.

5. Since a transcript was taken this memorandum does not record all of the questions asked of the Director. Of particular interest were some of the questions regarding participation by both

the Director and high level military people in basic decisions on conduct of the Vietnam war. Also of interest was the query about possible use of ChiNat troops in Vietnam. The Director stated he wished to go over the transcript on these series of questions most carefully.

6. The briefing seemed to go very well and the members seemed to be well satisfied with the quantity of information received. Comments by the Chairman and other members after conclusion of the session were most laudatory remarks concerning the Director's presentation.
